

SAFETY LENDING LIBRARY

SAF050- 5S FOR SAFETY: NEW EYES FOR THE SHOP FLOOR

1999

An uncluttered, well organized, and understandable workplace is the foundation for safety. This video is a set of universal principles and activities that sustain safe conditions on the shop floor. These videos focus on improving unsafe and hazardous conditions that exist before an accident has occurred. It uses a unique method to diagnose the causes of accidents. It then draws on 5S techniques an OSHA guideline to identify, implement, and standardize best practices for shop floor conditions. 5S stops the conflict between safety and profit because when you use the 5S approach, you will increase productivity and profits while improving safety.

SAF055-7-MINUTE SOLUTIONS FOR CONSTRUCTION (6-PROGRAM COMPILATION)

JJ Keller DVD

This 7-Minute Solutions for Construction dvd make it possible to squeeze in employee construction safety training ... without disrupting your must-meet schedule. The 6-program compilation consists of six videos, each just seven minutes long, all on one DVD. Programs included are: Back Safety, Electrical Safety, Fall Protection, Hand & Power Tool Safety, Personal Protection Equipment, and Stairways & Ladders. Fast-paced and attention getting, each construction training program features: Interviews with job site trainers, supervisors, and employees who have real-world experience with the topic. State-of-the-art animation, which helps employees, visualize and remember important information. A quick review and summary.

SAF060- 7-MINUTE SOLUTIONS: BACKING

1996

Reduce the chance of a backing collision with this 7-minute reminder!

The majority of commercial vehicle accidents involve backing. This engaging program demonstrates proper backing procedures for some of the most common problem areas such as jacking, chasing, and blind-side backing. Includes 10 Driver Skill Cards that reinforce the video's message, an Instructor's Bulletin that outlines training, and a driver quiz to document training.

SAF061- 7-MINUTE SOLUTIONS: COUPLING & UNCOUPLING

1996

Deliver an important safety message in just 7 minutes!

This attention-getting program takes drivers step-by-step through proper coupling and uncoupling procedures, from inspecting the fifth wheel to removing the wheel chocks... and from positioning the rig to pulling the tractor clear of the trailer. Cautions drivers against carelessness and shortcuts. Includes 10 Driver Skill Cards that reinforce the video's message, an Instructor's Bulletin that outlines training, and a driver quiz to document training.

SAF062- 7-MINUTE SOLUTIONS: EXTREME WEATHER DRIVING

1996

Don't let your driversqhead out into bad weather without watching this video first!

In just seven minutes drivers pick up valuable tips on driving safely in wintry conditions, rain, fog, and extreme heat. Includes 10 Driver Skill Cards that reinforce the video's message, an Instructor's Bulletin that includes training tips, and a driver quiz to document training

SAF063- 7-MINUTE SOLUTIONS: NIGHT DRIVING

1996

This to-the-point program helps remind drivers that driving at night is more difficult -- and more dangerous. It discusses why night driving is dangerous (vision glare, fatigue, drunk drivers, headlights, etc.) and offers helpful advice for improving night driving safety, such as increasing following distance and using high beams whenever possible.

SAF064- 7-MINUTE SOLUTIONS: SEEING HAZARDS

1996

This video program reminds drivers about the kinds of hazards they're likely to encounter on the road, and more importantly, how to handle these dangers effectively. Roadwork, bridges, accidents, and other drivers' actions are just a few of the driving challenges addressed. Includes 10 Driver Skill Cards that reinforce the Video's message, an Instructor's Bulletin that outlines training, and a driver quiz to document training.

SAF075 - AIR GUN SAFETY IN THE WORKPLACE

13 min VHS

Covers Air Gun Safety in the Workplace Including Such Important Topics as: OSHA regulations concerning use of compressed air for cleaning 29CFR 1910.242(b), Complying with OSHA standards, Debunking the 30 psi myth Importance of chip guarding, Maximizing safety air gun operating efficiencies, OSHA regulations concerning noise 29 CFR Part 1910.95(a), Selecting the proper safety air gun for your application and Reinforcing safe practices operating efficiencies

SAF080 - ACCIDENT INVESTIGATIONS: THE BIG PICTURE

19 min VHS

Open a discussion of unsafe working conditions and help your workers explore creative solutions with this program. This innovative program discusses unsafe working conditions and will help your workers explore creative solutions that prevent future accidents. You will learn: Gathering facts and information, evaluating accidents and Writing accident reports

SAF081 - ACCIDENT INVESTIGATION

22min VHS

This program offers a systematic approach to effectively investigate all types of accidents and determine their root causes - so you can prevent future incidents. Strategically placed interactions and high-end graphics hold your employees attention throughout the program. Topics covered include: Purpose of an accident investigation, How to respond to different types of accidents, Conducting an investigation, Techniques to get accurate results when interviewing witnesses, Documenting findings and corrective actions, and Implementing improvements

SAF095 – ARC FLASH – SAFETY AWARENESS

Coastal DVD

Every day, 16 workers are injured in electrical accidents - some fatally. Give your workers comprehensive grounding on safety measures that comply with NFPA Standard 70E. This award-winning program explains the facts on electrical shock arc flash and arc blast. It covers Arc flash hazards, Electrical safety program, Hazard analysis, PPE and Safe work practices.

SAF190- BACK AT WORK

1994, 16 minutes

This unique video program reviews proper lifting procedures and makes workers realize how important lifestyle is when it comes to avoiding back injuries. In fact, this program should make a positive impact on every aspect of your employees performance at work and at home. This program shows dramatizations to emphasize importance of lifestyle; it covers proper lifting procedures, consequences of shortcuts, posture, exercise and physical fitness.

SAF200- BACK SAFETY TRAINING KIT

1993

Back injuries account for 1/4 of all workers comp claims- and cost businesses billions of dollars. Help protect your company's employees - and its bottom line - with Keller's Back Safety Training Kit. This easy-to-use training program teaches employees about the causes of back problems and the steps they can take to keep injuries from occurring. It explains proper lifting and strengthening exercises everyone can do.

SAF210 – BACK SAFETY - LIFT WELL, LIVE WELL

Coastal DVD

Your employees had better watch their backs, lest they suffer from back pain later in life. Get prevention techniques now before the pain sets in and hurts operations and profits. This program shows how you can 'head off' back pain through common sense and practical advice. It covers back basics, positive steps, warning signs, proper lifting and exercise.

SAF225- BEHAVIOR ANALYSIS-UNDERSTANDING THE CAUSES

1997, 65 minutes

Introduction to Behavior-Based Safety - Module 2

This program describes ABC Analysis, a valuable tool for understanding the factors that influence behavior and how to use them as leverage points to improve safety.

SAF230 - BENZENE: BETTER SAFE THAN SORRY

18 min VHS

This program will identify areas where benzene is routinely present and describe how to detect benzene on the job, describe the physical and health hazards of benzene, identify the common routes of entry associated with exposure to benzene, describe the methods of protection that can be used to prevent overexposure to benzene and describe the procedures that should be followed in the event of a benzene spill or overexposure.

SAF240 – BLOODBORNE PATHOGENS – TAKE PRECAUTIONS

Coastal DVD

Your employees can never be too careful when it comes to the risks of deadly blood borne pathogens. The program covers the three main types of these organisms including the symptoms and routes of transmission. It discusses methods to avoid infection and ways to deal with mishaps at work. It covers HIV, HBV and HCV, transmission, accidents and injuries and common sense safety precautions.

SAF250- BLOODBORNE PATHOGENS IN INDUSTRY: WHAT EMPLOYEES MUST KNOW

1992, 1996

Help protect your employees from HIV, HBV and other pathogens - and help meet OSHA's Occupational Exposure to Blood borne Pathogens standards (29 CFR 1910.1030) - with this all-in-one training package. In a 20-minute video and accompanying handbook, your employees will learn about the types of blood borne pathogens and the ways they can be transmitted. The program reviews work practices and engineering controls that can help prevent infection, explains the use of personal protective equipment, defines universal precaution, and explains the actions that must be taken following an exposure incident.

SAF251 - RESCUE BBP: NOTHING TO FEAR

22 min VHS

Covers exposure risks, AIDS and Hepatitis B, transmission of blood borne diseases, transmission of blood borne pathogens in the workplace, minimizing exposure, precautions, preventive work practices, protective barriers, and CPR.

SAF253 - CHEMICALS IN THE WORKPLACE- Handle with Care

VHS 1988

New to using chemicals or need to review how you handle them? Here are some points you need to consider.

SAF254 – CHEMICAL HANDLING SAFETY – THE BASICS

Coastal DVD

The simplest formula for safety is knowledge. This program teaches employees how to identify, handle, and store dangerous chemicals safely and properly. More importantly, they will be trained how to respond effectively in case of an emergency. The training illustrates hazard identification, personal protection and emergency response.

SAF256 – COMPRESSED GAS – SAFETY AWARENESS

Coastal DVD

Pressurized gases are used in so many ways that people take them for granted - to their detriment. Useful they may be, but they are dangerous if handled improperly. Ease the pressure with this program, which covers details on safe and proper handling. This covers classifications and labeling, flammable, non-flammable and toxic gases, handling cylinders and valves.

SAF257- COMPRESSED GASES, SAFE HANDLING

1996, 18 minutes

Most of us use pressurized gases in so many ways that we take them for granted. Despite their convenience, they can be dangerous if handled improperly. Proper handling required special skills and training and is the focus of this important video program. It covers: classifications, labeling, flammable, non-flammable and toxic gases, handling cylinders, valves and leaks

SAF258- CONFINED SPACE ENTRY: INSIDE MANEUVERS TRAINERS TOOLKIT

1997, 22 minutes

Working in a confined space is a lot like working in a submarine - space is tight, atmospheric conditions are critical and potential hazards abound. This dynamic program uses the USS Atlanta, a United States Naval Submarine and its crew as a dramatic backdrop to compare the dangers of working to that of a submarine to that of working in a confined space. This Toolkit covers: space hazards, atmospheric testing, confined space entry permits requirements, PPE, rescue and team responsibilities.

SAF259 – CONFINED SPACE – PERMIT REQUIRED

Coastal DVD

Protect your employees from the dangers of working in confined spaces and be sure you're in compliance with OSHA 1910.146 with this popular program. It reviews the details on how to prepare a confined space entry permit and the best way to train a confined space entry team. It covers entry permit requirements, safe atmospheric testing, training the entry team.

SAF259.50 – CONTRACTOR SAFETY – IT'S EVERYBODY'S BUSINESS

Coastal DVD

When there are two or more employers on the site, safety can be a challenging issue. But with this program, they can easily team up, keep everyone safe and get the job done right on time. Contractor Safety: It's Everybody's Business alerts all workers to common safety hazards and shows concrete ways to avoid them. It also lays down the requirements for the general contractor, including accepted standards and procedures.

SAF260 - WORKING IN CONFINED SPACES

8 MIN VHS

Confined space is a place that is substantially (although not always entirely) enclosed where there is a risk of death or serious injury from hazardous substances or dangerous conditions (e.g. lack of oxygen). Very often, injuries and deaths occur as a result of work being carried out such as welding, painting, flame cutting, use of chemicals. Learn what you need to do to protect yourself and your employees.

SAF260.50- CONFINED SPACE: USING CHEMICALS

9 min VHS

It will cover Gaseous hazards: hydrogen sulfide, carbon monoxide, carbon dioxide, lack of oxygen and the sources and effects of each and using air monitoring devices: training, calibrating, sampling, knowing device limitations

SAF260.75 - CONFINED SPACE II: TESTING CONFINED SPACES

VHS

SAF261 - CONFINED SPACE: AIR MONITORING

10 min VHS

Provide required air monitoring training and ensure employees are properly protected from the potentially deadly air in a confined space.

SAF262 - CONFINED SPACE ENTRY

20min VHS

Confined spaces may be one of the most dangerous hazards an employee may face. Many times the dangers present may not be visible to the human eye. Summit's Confined Space Entry exposes the dangers of confined spaces, providing workers with the knowledge of how to safely work within potentially hazardous conditions. Motivate your employees to follow best safety practices when working in or near confined spaces. This program discusses: What is a confined space? Associated hazards, Proper entry procedures including permits, monitoring and PPE, and Attendant responsibilities.

SAF263 - DEATH TRAP: PERMIT REQUIRED CONFINED SPACE

2 VHS Set: 27min VHS, 9min VHS

Complies with OSHA 29 CFR 1910.146 This dynamic video, narrated by award-winning actor Paul Sorvino, is designed for entrants, attendants, supervisors and general personnel who may encounter permit-required confined spaces on the job. Viewers are taken step-by-step through the proper procedures for identifying confined spaces, isolating and securing them for entry, and performing the actual entry procedure. Viewers will learn the importance of following the written program and entry permit to prevent tragic confined space accidents. Also includes a 9 min VHS on Entering Confined Spaces.

SAF264 - MILLER EQUIPMENT ON CONFINED SPACE

VHS

Miller Confined Space & Rescue/Descent Systems The retrieval ... Confined Space Products & Systems ... Is Your Fall Protection Equipment a Silent Hazard?

SAF265 – 10-HOUR CONSTRUCTION SAFETY MANUAL

This will provide contracting personnel and individuals who are responsible for on-site contractors the basic knowledge and tools necessary to control hazards associated with construction. It covers OSHA policies, procedures and standards as well as safety and health issues. Topics covered include each section of the OSHA construction standards. Special emphasis is placed on those areas that are the most hazardous, using the OSHA standards as a guide.

SAF270 - HOW TO HANDLE CORROSIVES

VHS 1989

Everyone who works with corrosives should be aware of their potential hazards and follow all safety precautions and recommended handling and storage procedures. Following these basic safe work practices will help protect you and your coworkers from the hazards of corrosive materials.

SAF272- DISCIPLINE: SAFETY ENFORCEMENT

6 minutes 1993

This video is 5-minutes on supervisor leadership. This video covers the enforcement for the safety rules. Documentation for counseling on safety issues. 4 ways to enforce the rules are: 1) create the safety rules, 2) train the employees on these rules, 3) identify any problems or issues and 4) enforce the rules.

SAF280 - PLUGGING AND PATCHING DRUMS, Hazardous Materials Containment Series

VHS 1988 17 minutes

This program presents basic techniques for controlling leaks in metal 55 gallon drums that contain hazardous materials. The program is divided into 5 training objectives: to show basic safety rules, demonstrate the major causes of leaks, to present the features of low pressure metal drums and how to use these features to control leaks, to show basic tools that you will need to plug & patch drums and demonstrate step by step plugging and patching techniques.

SAF295 – ELECTRICAL HIGH VOLTAGE: KNOW THE HAZARDS

Coastal DVD

"There were three of us down there. My friend was closer to the breaker -- all of a sudden he was a ball of flames..." So begins this gripping program, which helps workers in electrical utilities operations stay safe and comply with OSHA's Electric Power Generation, Transmission and Distribution Standard (1910.269). The course covers: PPE and fall protection, Proper use of tools, Exposed energy lines, Overhead lines, Underground electrical installation, Substations and power plants, Grounding.

SAF297 – EMPLOYEE PRODUCTIVITY, EFFICIENCY, AND SAFETY

Safety Now Videos (DVD)

Program designed to help motivate employees to work efficiently, to be more productive and, certainly, to include safety in their every day work habits. Emphasis is on productivity, but the training emphasizes the need to work safely to achieve productivity.

SAF300- EMPLOYEE SAFETY FOR THE HOSPITALITY INDUSTRY

1998

General Managers, supervisors and trainers responsible for safety and compliance training will turn to this book again and again. Includes information, examples and guidelines specific to hotels and motels. Covers need-to-know topics such as the OSHA inspections, workplace hazards, personal protective equipment, employee injury and record keeping, accident investigation, and employee safety training.

SAF325-EMPLOYER GUIDE AND MODEL SAFETY & HEALTH ACCIDENT PREVENTION PROGRAM

Volume I, II, III, IV

I & II . 1999, III . 2000, IV - 2000

The purpose of this guide is to provide employers with the means to develop implement and assess a Safety and Health Accident Prevention Program. Although a Safety and Health Accident Prevention Program is not currently mandated by OSHA regulations, having a program makes good business sense. Accidents are costly and an effective safety and health program can help reduce their chance of occurring. Consider what one lost workday due to an injury could cost an employer in terms of both direct and indirect expenditures.

SAF345- ERGONOMICS, BREAK THE RMI HABIT

1997, 12 minutes

This program incorporates the new requirements of the California OSHA Ergonomics Standard (Article 106 Section 5110) with common-sense ergonomics procedures to help your employees work safer and smarter. This program, which is based upon only approved ergonomics standard in the country, is ideal for use in all US workplaces. Covered is: introduction to RMI, how to reduce repetitions, food posture, reverse stretching.

SAF346 - ERGONOMICS: EMPLOYEE TRAINING-PREVENTING MUSCULOSKELETAL DISORDERS

18min VHS

This video focuses on the three main components of a successful ergonomics program: developing knowledge of musculoskeletal disorders, reporting their signs and symptoms and controlling ergonomic hazards. Topics include types of musculoskeletal disorders, importance of reporting MSD signs and symptoms, determining MSD incidents and risk factors, the purpose of the job hazard analysis and the measures to be taken to control ergonomic hazards.

SAF347- ERGONOMICS: SOLVING THE PUZZLE

2000, 18 minutes

Get a head start and snap into compliance with the new Ergonomics Standard! This new Trainers Toolkit covers the proposed OSHA standards and will help you create an ergonomic work environment for your employees that will help reduce injuries, workers compensation costs and lost workdays. It covers: creating a successful ergonomics program, changing your workplace and reducing repetitive motion injuries.

SAF348 - ERGONOMICS: PREVENTING MSDS (SUPERVISOR MODULE)

17 min VHS

We developed this series with ergonomic experts to ensure technical accuracy. The result: when you train with this series, your workers will learn what musculoskeletal disorders are and measures they can take to reduce their exposure to risk factors and prevent injury. Preventative measures that apply to almost any work environment are depicted in a wide variety of scenes. This program will create an awareness and respect for ergonomic issues and prevent them from occurring. It covers Analyze job functions, Recognize MSD indicators, and Job function and design.

SAF364 - EYE SAFETY-NO SECOND CHANCES

22min VHS

In over 90% of all eye injuries, the injured person was not wearing eye protection or had the wrong protection for the job task being performed. Training on proper selection and use of eye protection works best when it also motivates workers to consistently use the equipment. Scenes from a variety of job sites show several situations where eye protection is needed and used correctly. Your workers will develop a respect for eye protection and understand the life-long consequences from not using adequate eye protection. The program presents: Anatomy of the eye, Hazard recognition, five most common eye hazards, Dangers of UV and infrared light, First aid procedures, and Selection, use and care of eye protection.

SAF370 - FACEPIECE: SCOTT SKA-PAK WITH SCOTT-O-VISTA FACEPIECE

2 VHS set

Operation & Maintenance

SAF375 – FALL PROTECTION – THE RIGHT CONNECTION

Coastal DVD

In buildings and on scaffoldings, the dangers run high and your safety standards have to tower above the risks. Heighten yours now with this highly valuable information on fall protection equipment, safety measures and fall emergency response. This DVD will cover Guardrails, Personal Fall Arrest Systems, Positioning Devices, Proper Use and Maintenance and Rescue from Height

SAF390- FEDERAL REGISTER

Part II, Nov. 23, 1999,

Occupational Safety and Health Administration, 29 CFR Parts 1910, Ergonomics Program; Proposed Rule
The Occupational Health and Safety Administration proposed Ergonomics program standard to address the significant risk of work-related musculoskeletal disorders (MSD) confronting employees in various jobs in general industry workplaces.

SAF394 - FIRE SAFETY-THERE'S NO SECOND CHANCE

20 min VHS

When it comes to fire prevention, you cannot take any chances. You have to ensure that everyone is in the know about fire safety. Do NOT let fire burn away your organization, your profits, and your employees' lives. This program presents vital training points on the elements and classes of fire, the proper use of fire extinguishers and emergency action plans. It also explains Elements and classes of fire, Fire prevention, How to extinguish a fire, and Emergency Action Plans.

SAF395- FIRE EXTINGUISHERS: FIGHT OR FLIGHT?

17 minutes

Each year thousands of Americans die as a result of fires. Fire protection education is clearly important for everyone-at home, at work, at school, and in the community. This is an educational program designed to teach the public to: 1) Operate portable fire extinguishers safely and effectively, 2) know the different types of extinguishers and how to use each type and 3) evaluate whether or not to fight a fire with an extinguisher.

SAF400 – PORTABLE FIRE EXTINGUISHERS

Coastal DVD

Don't let your assets turn into ashes. Put out the fire with this program that explains the different classes of fire and offers practical tips on fire extinguisher use. It covers Class A,B,C,D fires and Class A,B,C,D extinguishers.

SAF425- FIRST AID ON THE JOB – INITIAL RESPONSE

VHS 26 minutes

This video program is designed specifically for those who may not be first aid certified, but may be first on the scene of an accident. It is hosted by Bobby Sherman. It explains when and how to move a victim, stop bleeding, symptoms of shock and prevention and awareness of bloodborne precautions.

SAF425A - THE OSHA FORMALDEHYDE STANDARD

DVD 2011

To help employees recognize the hazards in working with formaldehyde, and how to handle it safely, this education and training program is designed to present basic information about the OSHA Formaldehyde Standard and the procedures it sets up for working safely with Formaldehyde.

SAF450-455 - FOCUS ON SAFETY TRAINING SERIES -

THIS SERIES OF BRIEF, INFORMATIONAL VIDEOS ON

SAF450 - EYE PROTECTION

SAF454 - SLIPS, TRIPS & FALLS AND

SAF455 - LADDER SAFETY

1996

can help you provide quick hit+safety reminders where they are needed most. In less than ten minutes per subject, individual employees or groups can refresh their safety knowledge and renew their commitment, helping reduce the likelihood of accidents.

SAF473 - SAFETY BITE Bonding & Grounding

VHS 5:15 minutes

OSHA's requirements for bonding and grounding in general industry are referenced in the Flammable Liquids Standard. The process of bonding and grounding can be defined as providing an electrically conductive pathway between a dispensing container, a receiving container and an earth ground. This pathway helps eliminate the buildup of static electricity by allowing it to safely dissipate into the ground.

SAF475 - HOW TO HANDLE FLAMMABLES

VHS 1989

Flammable liquids are used in many workplaces. They may range from cleaning fluids, paints, and gasoline to some more volatile and dangerous liquids. If you remember a few simple, common sense rules when handling or storing flammable liquids, you can help prevent injury to yourself and your coworkers or prevent your jobsite from going up in flames.

SAF490A - FORKLIFT MANEUVERS: ALL THE RIGHT MOVES

Coastal DVD

Coastal is proud to provide forklift operator safety training to help keep your workplace in compliance with OSHA's forklift safety standard. Every forklift operator must be thoroughly trained before he or she starts work. Experienced operators must be retrained every three years and any operator must receive additional training after an incident or near miss. This program reviews the most important forklift safety issues - from operating conditions to load manipulation. With this important information, your forklift drivers will be equipped to operate safely and avoid accidents. Forklift Maneuvers: All The Right Moves is ideal for new and experienced forklift operators and will help them receive and maintain their OSHA certification.

SAF500 - SAFETY BITE: Forklift Engineering Principles

VHS 1996 5 minutes

The principles of forklift engineering are an important part of understanding how and why forklifts operate. Without this training, operators may not fully understand why certain safety procedures are mandated.

SAF510 - FORKLIFT SAFETY An Operator Training Program

VHS 1999

This safety training program is designed to assist in training authorized forklift operators. Forklift training is intended to prevent accidents, injuries and fatalities that may be caused by the improper and unsafe use of forklifts. This program explains the requirements of the OSHA standard 1910.178.

SAF514 – OSHA 10-HOUR GENERAL INDUSTRY SAFETY MANUAL

This will provide management personnel and individuals that are responsible for safety at their work site, the basic knowledge and tools necessary to control hazards associated with general industry. Anyone who is in a management or supervisory role, and has responsibilities to oversee worker safety, will benefit from this. It covers all of the key OSHA standards as well as general safety and health issues. Special emphasis is placed on those areas that are most hazardous in general industry.

SAF525- THE GIFT OF FEAR, Survival Signals that Protect Us From Violence

Gavin De Becker (Book) 1997

We all know there are plenty of reasons to fear people from time to time. The question is, what are those times? An important and provocative book that offers real solutions to problems of fear and personal violence-from an expert who knows the territory and explodes the myths.

SAF532- HAND PROTECTION: LESSONS FOR A LIFETIME

1996, 22 minutes

We take our hands for granted - that is, until something dreadful happens. This Trainers Toolkit features workers who recount their experience with hand injuries. Very Motivational! This toolkit covers: hazard assessment, machine hazards, electrical hazards and PPE.

SAF534-HAZMAT TRANSPORTATION: WHAT DRIVERS NEED TO KNOW

VHS 1995

To emphasize their importance, DOT is very strict about enforcement. For minor violations, you could be fined or placed out of service. For willful violations, penalties could include jail time. This will explain the basic requirements of the regulation. It will also review your key responsibilities.

SAF534.50 - HAZMAT TRANSPORTATION: WHAT DRIVERS NEED TO KNOW Second Edition

VHS 2003

This is a video based training program that helps you meet DOT training requirements by providing drivers with a working knowledge of hazmat regulations in a format tailored specifically to their responsibilities.

SAF535-HAZARD COMMUNICATION: REGULATION AND RISK

JJ Keller DVD

Satisfy OSHA's hazcom training requirements and help minimize risk with this all-in-one training program. This dvd provides a fresh, new approach to training. It introduces the major components of OSHA's most commonly violated standard through a risk scenario employees can relate to. This fast-paced program - available on DVD or VHS, and in English or Spanish - will help you meet OSHA's training requirements under the Hazard Communication Standard and teach your employees the essentials of working safely with hazardous chemicals. The major topics covered include the following: The Hazard Communication, Standard Hazardous Chemical Inventory, Material Safety Data Sheets, Labeling, Employee Information and Training and The Written Program

SAF536 - HAZMAT TRAINING MADE EASIER For All Employees, Second Edition

DVD 2008

The information contained in this training program and how it is presented will allow you to pick and choose, targeting areas of the HMR that require additional focus, whether it is the HazMat table, shipping papers, marking, labeling placarding, emergency response, loading/unloading, and so on. The structure of the content in this training kit mirrors the requirements as detailed in the HMR. This is designed to help all hazmat employees-no matter what their role is in the hazmat transportation chain-better understand the precautions they must take with every hazmat shipment in order to prevent costly and dangerous incidents.

SAF537 - HAZMAT TRAINING What's Required & How to Comply

DVD 2014

The objectives of this training are to provide a solid understanding of the Hazardous Materials Regulations (HMR) and the different requirements that are in place in the HMR for all of the different hazmat functions.

SAF538- HAZMAT TRAINING BASICS

1999

General awareness hazmat training by itself may not be enough to prevent costly employee errors. And it's definitely not enough to fully satisfy DOT's hazmat training requirements. 49 CFR Section 172.704 requires general awareness training...and safety awareness training... and function-specific training. This video covers the 3 DOT-required areas of HazMat training - general awareness, function-specific, and safety.

SAF539-HAZWOPER TRAINING: AWARENESS LEVEL

Video - 1990, Handbook - 1995

Designed for all employees, this informative video program reviews awareness-level training. It can be used for new employee orientation and for mandatory refresher training.

It covers: legislative background, hazardous materials definitions, activities and workers covered by the HAZWOPER standard and awareness-level training.

SAF540 – HEAT STRESS - DON'T LOSE YOUR COOL

Coastal DVD

In outdoor work, it's important to keep ones cool . literally. Heat stress may sound like a minor inconvenience, but under blazing temperatures, people can suffer heat stress, illnesses, injuries, accidents and even death. This covers thermo-regulation of the body, importance of replenishing fluids and prevention and treatment.

SAF541-HEIGHTENED AWARENESS: FALL PROTECTION IN THE CONSTRUCTION INDUSTRY,

20 minutes

Fall Protection in the Construction Industry

- Enforcing fall protection procedures
- Discipline actions for those who don't comply
- Preplanning for potential all exposure
- Comprehensive training and Using PPE

SAF543 - HAZMAT SOLUTIONS Shipping Papers

VHS 2001

This video covers how to properly fill out a bill of lading for a hazmat shipment, the importance of using proper shipping names, required emergency response information, and how shipping paper are used to track the safe transportation of hazardous materials.

SAF542 - HAZMAT Security Awareness

VHS 2003

This program provides a proactive approach to hazmat security training by instructing employees on how to recognize and respond to the security risks they may encounter, including: potential targets, potential treats and prevention. In addition, this program also explores methods designed to enhance security in the facility, en-route and during the delivery of hazmat.

SAF544 - DOT HAZARD MATERIAL GENERAL AWARENESS TRAINING

VHS 1995 17 minutes

The USDOT requires employees to receive general awareness, function specific, safety and security awareness training as part of a comprehensive hazardous materials program. This course covers the general awareness and security awareness topics required by 49 CFR 172.704.

SAF546 – CONSTRUCTION INDUSTRY – CODE OF FEDERAL REGULATIONS --1926CFR

This book includes: Part 1903-inspections, citations, & proposed penalties
Part 1904-recording & reporting occupational injuries and illness
Part 1910-general industry-selected topics-
Part 1926-construction
General duty clause
Multiple employer citation policy
States with approved plans-state office directory
Regional and national offices
Directory of CFR titles and chapters
It's the law! Mandatory posting
OSHA Form 101 & OSHA Form 200

SAF550- HOLIDAY SAFETY AT THE TOP OF YOUR LIST

1994, 17 minutes

Holidays are a joyful time, but can also be dangerous if you aren't careful. This unique program will show you and your employees how to have a safe holiday season. Includes holiday safety checklist.

SAF570 - HAND SAFETY-IN TOUCH WITH SAFETY

16min VHS

Avoid hand injuries and eliminate the associated costs of lost-work time, lower productivity and insurance claims. We developed this program for DuPont Merck for those reasons. The program includes footage from a variety of facilities and is appropriate for all workers. It covers: Glove selection, Safe handling of glass and sharp objects, Use of tools and equipment and First aid.

SAF575 – HAZARD COMMUNICATION: YOUR SAFETY NET

2004, 17 minutes DVD

If your employees work with chemicals, hazard communication is their safety net. This program focuses on the essentials necessary to work safely with chemicals. Complies with OSHA 1910.1200. This dvd covers chemical hazards and how to control them, MSDSs and warning labels.

SAF600- HAZARD COMMUNICATION TRAINING FOR EMPLOYEES

The Hazard Communication Standard (1910.1200) is the one OSHA has cited most often in the last ten years. We brought together a top compliance editor and a skilled professional trainer to create a program you can use to help protect your company from OSHA fines and help protect your employees from hazardous chemicals.

SAF610 - HAZWOPER First Responder: AWARENESS LEVEL

Coastal DVD

Don't be caught unawares when HazMat accidents occur! Get a comprehensive overview of HAZWOPER with this program, which outlines its five levels and explains what responders at the first stage - awareness - must know and do. It also covers how to recognize and identify hazardous substances, your facility's Emergency Response Plan, and how to summon additional resources.

SAF615- HEADS UP! HARD HAT SAFETY

1996

Over 100,000 occupational head injuries are reported every year because most of those injured failed to wear required head protection. This video program explains how getting in the hardhat habit will help your workers protect themselves. Complies with OSHA 1910.135.

SAF620- HEARING PROTECTION: IT MAKES SENSE (Includes poster)

1995, 22 minutes

This Trainers Toolkit will help workers understand exactly how noise affects them and what they can do to protect themselves from hearing loss. It covers: the human ear, preventing hearing loss, audiometric testing, engineering and administrative controls and PPE.

SAF621 – HEARING PROTECTION – SOUNDS GOOD TO ME

Coastal DVD

Start your hearing protection training with a bang! Study how this delicate organ works and how it's affected and damaged by noise. Control noise level, understand Noise Reduction Ratings and use the appropriate ear PPE:

earplugs, canal caps, and earmuffs. The program also discusses audiometric testing, a simple and painless test to detect hearing loss. It covers the human ear, four P's of prevention, reducing high noise levels, and audiometric testing.

SAF622 - HEARING CONSERVATION

11 min VHS

Hearing conservation introduces the basic elements of the plan required by OSHA for work areas that meet or exceed the OSHA action level. The program explains various types of hearing protection equipment and how they are rated. This program is designed as an introduction for new employees and as a refresher for experienced personnel.

SAF625- HOTEL SAFETY ORIENTATION, A REALITY CHECK-IN

1996, 29 minutes

The potential hazards in a hotel setting are unlike any other. Besides being responsible for the safety of your employees, you are equally responsible for the safety of your guests. Help all of your employees take a pro-active approach to safety by reviewing what to watch out for in your hotel. This video covers: security, fire safety/emergency response and slips, trips and falls.

SAF627 - HYDROGEN SULFIDE

14min VHS

Protect the health of your workers by training with Summits Hydrogen Sulfide Safety program. Hydrogen sulfide is an extremely toxic, colorless, flammable gas with a characteristic "rotten egg" smell when present in small concentrations. Repeated exposure to high levels of hydrogen sulfide can result in chronic poisoning that can lead to memory loss, paralysis of the facial muscles, nerve tissue damage, and eye tissue diseases. Exposure to very high concentrations may result in collapse, coma, and death from respiratory failure, even in very brief exposures. Hydrogen sulfide occurs naturally in crude petroleum, natural gas, and can also result from bacterial breakdown of organic matter. The best safety practices presented in this program are ideal for persons working in the petrochemical, natural gas, utilities, wastewater treatment, paper and pulp, and other related industries who face risk of exposure to this gas. Summits Hydrogen Sulfide Safety provides a comprehensive guide to working safely with H₂S in its gas and liquid forms. Topics covered include: What is Hydrogen Sulfide? Permissible exposure levels to H₂S, Working safely around H₂S, PPE for working with or around H₂S, and Emergency response procedures.

SAF628 - I CHOSE TO LOOK THE OTHER WAY

12 min VHS

When employees are willing to speak to co-workers about unsafe acts, injuries can be prevented. This video dramatically tells the story of an employee who failed to speak up when witnessing an unsafe act. By choosing to look the other way, he allowed the needless death of a co-worker to occur. Based on the popular safety poem by Don Merrell, this program shows how speaking up about unsafe acts can save lives and help develop a positive safety culture. Verses from the poem are meshed with the videos action to deliver a stimulating safety message.

SAF629 - IT'S UP TO ME

14min VHS

Like its predecessor "I Chose to Look the Other Way," this video is based on a popular poem by Don Merrell and brings its powerful safety message to life through the combination of video and poetry. "It's Up To Me" makes clear that our standard excuses such as "I thought someone else would do it" or "That's not my job" are unacceptable when it comes to preventing injuries. Through several injury scenarios, meshed with stanzas from the powerful poem, viewers will see both the right way and wrong way to respond to unsafe situations. After watching this video, your employees will be compelled to report or correct unsafe situations and understand that an injury-free workplace is up to me.

SAF630 - INCIDENT REPORTING-YOU CAN SAVE A LIFE

16min VHS

This dynamic, media-rich training program is set in a variety of work settings, ideal for all employers. This proactive training program focuses on: Purpose of incident investigation, Gathering information, Interviewing witnesses, Analyzing information and Recommending corrective actions.

SAF635- INDUSTRIAL ERGONOMICS

Safety Now Videos (DVD)

The "Industrial Ergonomics" Safety Meeting Kit covers recognizing ergonomic problems, potential adverse effects and pragmatic solutions employees can use to address to these problems. In recent years potential ergonomic problems have become a major concern in many business environments. Many facilities are now devoting significant time and effort to controlling the twisting, turning, stretching and other motions that place stress and strain on employees' body. It focuses on potential ergonomic problems in manufacturing, assembly and warehouse situations.

SAF645 – JOB SAFETY PERFORMANCE – COACHING SAFETY ANALYSIS

Coastal DVD

Job Safety Analysis as a mean to increase safety awareness and achieve sustainable improvements in safety performance. Topics include an introduction, the JSA form, the JSA team & JSA steps, identifying hazards, resolving hazards and a conclusion. The dvd uses an example of lifting a box as a sample JSA.

SAF650- JOB SAFETY ANALYSIS TRAINING KIT

1997

One of the best ways to help eliminate hazards is through careful safety analysis.

This program provides tools and techniques to make job safety analysis easier and more effective. Its foundation is a 104-page User's Guide that walks readers step-by-step through the process of selecting jobs for analysis, creating an analysis team, conducting inspections, identifying hazards, and correcting them. Accompanying the User's Guide is a video that demonstrates processing a job safety analysis, along with written materials that provide those who are involved in analysis with valuable background information.

SAF700- KELLER'S CONSTRUCTION TOOLBOX TALKS

1998

We've put together more than 100 toolbox talks on the topic most often requested by construction companies. Packaged in one convenient binder are instructor's pages (with agendas and pre-station tips), handout pages you can photocopy for employees, and sign-off sheets which document that training has occurred. Most topics feature several different talks on specific subtopics, so you can pinpoint the training you do.

SAF708- LABORATORY CHEMICAL SAFETY

21 minutes

Help your employees use and understand you chemical hygiene plan and the requirements of the Laboratory Safety Standard with this vital video program. Programs covers: Complies with OSHA 1910.1450, hazard identification, exposure monitoring and PELs, medical attention and recordkeeping, emergency procedures.

SAF710 - LASER SAFETY

17 min VHS

Because of their power, precision and versatility, lasers are being used in a wide variety of industries. Millions of people use lasers everyday to do jobs as diverse as scanning groceries to cutting metal. The various classes of lasers present specific hazards. Laser Safety explores the classes of lasers, the role of the Laser Safety Officer, how engineering and administrative controls can be used to keep workers safe and how best to minimize risk when working with lasers.

SAF715- LEAD! TREAT IT WITH RESPECT

1998, 17 minutes

Lead is one of the most common and most dangerous materials in construction. The long-term damage to workers can be deadly, but with proper training workers can learn to protect themselves. Complies with OSHA's Lead in Construction Standard. It covers danger of lead hazards, how it enters the body, exposure limits, PPE, housekeeping, and medical surveillance.

SAF735-LINE BREAKING, USE A PERMIT

1998, 16 minutes

After the first 30 seconds of this video program, workers will realize the gravity of the training they are about to receive. Every day lines and equipment must be opened for different reasons. Although it is a relatively easy process, the potential for disaster is great. Safely managing the materials flowing through a pipeline system is the focus of this program. It covers: line and equipment opening (LEO), establishing an effective safety program, LEO permits, lockout/tagout, line breaking procedures/post procedures, and emergency response.

SAF750- LOCKOUT/TAGOUT: SAFETY TRAINING FOR EMPLOYEES

1995, 15 minutes

This convenient kit contains a 15-minute video along with support materials that help make it easy for you to prepare and conduct a training program. Showing proper lockout/tagout procedures performed in actual manufacturing plant settings, the video provides clear demonstration of proper techniques. It explains how to help avoid life-threatening situations, how to achieve a zero energy state, discusses special situations (including lockouts at shift changes), reviews the auditing process, and more.

SAF760 – LOCKOUT/TAGOUT – LIGHTNING IN A BOTTLE

Coastal DVD

Fatal injuries occur when hazardous energy is released and safety precautions are not in place. Never allow that to happen. Bottle up that uncontrolled energy, train your employees and boost your lockout/tagout measures with this shockproof program. It discusses kinds of energy lockout/tagout can control, lockout/tagout basics, OSHA's LOTO standard and six steps of lockout/tagout.

SAF761 - LOCKOUT/TAG AFFECTED EMPLOYEES AND MACHINE LOCKOUT-CONTROLLING HAZARDOUS ENERGY

2 VHS Set: 5 min VHS 21 Min VHS

Lockout tagout is one of the most important procedures workers need to understand to control hazardous energy. We discuss and define lockout/tagout. "Lockout/Tagout (LOTO)" refers to specific practices and procedures to safeguard employees from the unexpected energization or startup of machinery and equipment, or the release of hazardous energy during service or maintenance activities.

SAF770 – LOCKOUT FOR LIFE!

2004, DVD 23 minutes

This multi-award winning program shows reenactments of accidents involving employees who didn't follow proper lockout/tagout procedures. The compelling and dramatic footage will motivate your staff to practice this vital procedure.

SAF780- MACHINE GUARDING

1997, 14 minutes

Each year workers lose fingers, hands and arms; some even die because a machine was never safeguarded - or because the guard was removed for convenience. There are as many possible dangers as there are machines. That's why your employees must understand and use their first and best form of protection, machine safeguarding. It shows categories and types of machine guarding, importance of safeguarding, place where most machine hazards occur and safety control devices.

SAF785 - MACHINE GUARDING – SAFEGUARD YOUR FUTURE

Coastal DVD

Practically every machine has some sort of machine guarding . a shield, automatic shutoff or even a laser curtain . to protect workers if a body part should come in contact with the machine. In fact, OSHA requires specific machines to have specific guards. Make sure your employees understand the importance of knowing about and using the machine guards meant to protect them. It discusses safety guards, safety devices, lockout/tagout and PPE.

SAF790-SAFETY MACHINE GUARDING MANUAL

Machine-related accidents and injuries rank first among industrial accidents that produce permanent, partial disability. This will provide individuals that are involved with safety at their work site, the basic knowledge and tools necessary to control hazards associated with basic machinery and equipment. Anyone who is in an engineering, maintenance, safety committee or supervisory role, and has responsibilities to oversee worker safety, will benefit from this. It covers basic machine hazards, safeguarding techniques, practical considerations, machine safeguarding assessment elements, and a review of the OSHA related standards.

SAF800- MACHINE GUARDING: A MANAGEMENT AND EMPLOYEE SAFETY PROGRAM

1995

Over 10% of OSHA violations involve machine guarding. That makes it an issue everyone should be paying attention to. This training program helps you reach managers, supervisors and employees alike with information about how they can contribute to an effective machine guarding effort. Use it to help meet OSHA requirements under Section 1910, Subpart O. The training program features a video that explains the roles of management and employees, discusses the elements of a sound machine guarding policy, and looks at the responsibilities each person has for maintaining a safe work environment.

SAF805 - MAIN STREET: IT'S YOUR RIGHT TO KNOW & ETHYLENE OXIDE

17 min VHS

OSHA has expanded the Hazard Communication or Right-To-Know Standard beyond the manufacturing and chemical industries to cover employees who work with chemicals at non-manufacturing organizations. Main Street is a 17-minute video program designed to instruct workers about the chemicals they work with, what precautions to take to avoid injury and what to do if accidents occur. In addition to this training video, the training package also includes a Trainer's Manual with reproducible participant material which features a "Safety Awareness Quiz" that serves as a permanent record of the training received by each employee. Topics include: Training workers in chemical safety quickly, easily and effectively, Document the training each employee receives, Reduce accidents and worker's compensation claims, Comply with the expanded Right-To-Know standard, and Illustrate the hazards and precautions for solvents, poisons, corrosives, gases, explosives and carcinogens

SAF809.5 – NIOSH POCKET GUIDE TO CHEMICAL HAZARDS

August 2006 CDC Workplace Safety and Health

Department of Health and Human Services, Centers for Disease Control and Prevention,
National Institute for Occupational Safety and Health

This guide provides a concise source of general industrial hygiene information for workers, employers and occupational health professionals. The guide presents key information and data in abbreviated tabular form for 677 chemicals or substance groupings commonly found in the work environment.

SAF810- OFFICIAL OSHA SAFETY HANDBOOK-

1996

On each topic, the handbook reviews the relevant OSHA regulations and identifies common workplace hazards. Readers learn about prevention strategies, proper use of PPE, and specific safety procedures to follow.

SAF812 – OSHA Safety Training Handbook (6th Edition, JJ Keller)

A popular training tool used by thousands of companies, provides must-know safety information for 23 critical topics ranging from first aid to workplace safety. Confined spaces, lifting, slips, trips & falls, electricity, emergency response, fire prevention. These and other dangers make safety something all employees need to take seriously.

SAF815- OSHA, Example Tools for Small Business, (CD ROM)

SAF816- OSHA Dictionary

Definitions From: 29CFR Parts: 1903 Inspections*1904 Record keeping*1910 General Industry*1926 Construction

SAF818.25- SAF818.30-OSHA SAFETY COMPLIANCE VIDEO SEMINAR SERIES

This series consist of videos, each featuring one seasoned seminar presenters and a live studio audience filled with safety professionals.

SAF818.25-.ACCIDENT INVESTIGATIONS

Get the facts about accident investigations, including their objectives, how to respond and investigation procedure.

SAF818.27- CITATIONS AND PENALTIES

Discover the different types of violations and the intricacies of the appeals process.

SAF818.28- HAZARD ANALYSIS

Review the definition and goals of hazard analysis, as well as details on observations, inspections and audits.

SAF818.30- WORKPLACE INSPECTIONS

Find out all about inspection priorities and the complete inspection process.

SAF818.50- PERSONAL FALL PROTECTION, ONE STEP BEYOND

1999, 13 minutes

Falls are the third highest cause of workplace fatalities, behind homicides and motor vehicle deaths. This video program covers OSHA's Fall Protection Standard and details proper safety practices for general industry. It covers: types of personal fall protection systems, which systems you should use, equipment anchorage, tie-off and use, rescue fall victims and equipment care and inspection.

SAF818.51 - PPE: THE RIGHT CHOICE

16 min VHS

Are your people too stubborn to wear their PPE? Give them a first-hand look at the tragic consequences when they don't. Have them watch a worker's testimony on how he was injured because he didn't wear the right equipment. Once your workers see what COULD happen, then perhaps, unlike the worker in this riveting training program, they'd be more likely to take their PPE seriously. The program covers wearing the right PPE for the job, the importance of PPE, Employer's and employee's responsibility, Care and maintenance and Different types of PPE.

SAF818.52 - PERSONAL PROTECTIVE EQUIPMENT: YOU'RE COVERED

17min VHS

Safety from head to toe! Cover the basics of OSHA's PPE standard and remind your employees to keep everything - hands, eyes, ears, head, and feet - covered.

SAF818.53 -PPE- THE RACE TO SAFETY

SAF818.53A - PPE- THE RACE TO SAFETY (TRAINERS TOOLKIT)

24 min VHS

Race your way to PPE with Bobby LaBonte.

Step on the safety pedal and pull away from the dangers. In this program, NASCAR star Bobby Labonte compares auto racing dangers with common industrial hazards and discusses the facts on PPE, including safe use and maintenance, total body protection and hazard assessment. It covers full protective covering, knowing the limitations and Maintenance and disposal.

SAF818.75-PERSONAL PROTECTIVE EQUIPMENT: SAFE AT WORK

JJ Keller DVD

Train employees about proper PPE use to help avoid accidents & injuries. This dvd will help you ensure that employees understand their role and responsibilities in safeguarding themselves against on-the-job hazards. It is perfect as an orientation for new employees or refresher training for veteran workers. The program covers critical PPE safety topics, including: eye & face, head, hand, and foot protection, plus respiratory protection and hearing conservation. Its blend of straightforward facts, risk control scenarios, and how-to information helps trainers fulfill the requirement that employees prove they can properly use PPE before they are considered %officially trained.+

SAF819- PERSONAL PROTECTIVE EQUIPMENT (PPE): AN ASSESSMENT AND TRAINING PROGRAM

1994

For employees, a 22-minute video teaches when to use PPE, what equipment to use, how to use it and maintain it properly, and more. For supervisors and managers, a separate video provides information on how to conduct the required workplace hazards assessments. Also includes: an extensive assortment of support materials to help organize and present your training program.

SAF819.50- PLANNING & RESPONSIBILITIES, CONSTRUCTION SITES

Operation Safe Site this video covers hazard recognition for construction industries and OSHA guidelines that the employee or employer are responsible for.

SAF820- PRO-ACTIVE SAFETY ATTITUDES: LOOKING OUT FOR NUMBER ONE

1997, 19 minutes

This multi-award-winning Trainers Toolkit takes a unique look at safety and safety training. It underscores the importance of safety equipment and safety habits and demands that all employees take responsibility for safety.

SAF820.50- PRO-ACTIVE SAFETY ATTITUDES: TARGET ZERO

1996, 16 minutes

Zero accidents in the workplace are a possibility - and it all starts with a vision. Astronaut Buzz Aldrin helps to emphasize the importance of pro-active safety by reminding us that there was a time when the possible seemed impossible. This Trainers Toolkit covers vision and initiative, creating expectations, accident prevention, building trust and maintaining leadership.

SAF821.25 - PROCESS SAFETY MANAGEMENT

Coastal DVD

This vital program will help your supervisors comply with OSHA's Process Safety Standard (1910.119). It covers crucial compliance information and training requirements. Explanation of the OSHA standard, Employee participation, Compliance audits, Emergency response and follow-up

SAF821.50- PROTECTING YOUR FEET, LEARNING THE ABC'S

1998, 18 minutes

Practicing good housekeeping and maintaining strong and healthy feet are two of the tips revealed in this important program. This video covers: prevention of foot injuries and safety shoes.

SAF821.77- REAL LIFE SERIES: SAFE DRIVING

1999, 18 minutes

Motor vehicle accidents are one of the top causes of occupational fatalities. This important video program discusses how to be a defensive driver, recognizing hazards and staying alert.

SAF821.78- REAL LIFE SERIES: SLIPS, TRIPS AND FALLS

1999, 17 minutes

Falls account for 400,000 workplace injuries each year. This exciting new entry into the Real, Real-Life training series will teach your workers to be aware of potential dangers and minimize serious injury on the job. Using a baseball theme, this video delivers necessary information on how to avoid dangerous accidents in the office, in an industrial setting or at home.

SAF822- "REMEMBER CHARLIE" VHS - 56 minutes

SAF822.5 - "REMEMBER CHARLIE" DVD

This is a deeply moving portrayal of the devastating real-life consequences of the abuse of safety procedures. It motivates audiences to handle all aspects of their lives with greater awareness and appreciation of safety. It facilitates insight into everyone's faulty safety practices and attitudes. The attendees become more responsible for their own safety on the job, at home, at play...everywhere. It dramatically changes safety attitudes from uncaring, apathetic and routine to Safety First & Always.

SAF822.9 - "REMEMBER CHARLIE"- SAFETY EVERYONE'S RESPONSIBILITY .

Part 2 DVD

This safety video truly motivates workers and management to come together as a team. When both parties work not as adversaries but as partners, then you end up with a very strong workplace safety culture. This video, often referred to as Remember Charlie Part 2, is the powerful follow-up video to Remember Charlie. Mr. Morecraft salutes those employees who follow safety procedures. Through his dynamic speaking ability, Charlie Morecraft motivates audience members to take responsibility for their own actions, and their own safety observance, because what we do affects the lives of everyone around us. Trust us, if you liked the Remember Charlie video, you absolutely need to add this video to your training arsenal.

SAF823- RESPIRATORY PROTECTION, A BREATH OF FRESH AIR

1998, 18 minutes

This vital program thoroughly details the revised OSHA standard (1910.134) and will help workers avoid exposure to airborne hazardous substances. Includes: hazardous materials, written program, medical evaluating and proper fit testing.

SAF825 - RESPIRATORY PROTECTION - ANOTHER WORLD

Coastal DVD

Breeze through the airborne dangers with this program. Comply with OSHA 1910.134 and help workers avoid exposure to hazardous substances, which lead to serious health effects and other chronic illnesses. The program discusses OSHA's Respiratory Protection standard, hazardous atmospheres, types of respirators and fit testing.

SAF845- SAFETY ATTITUDES, FOOD FOR THOUGHT

1999, 15 minutes

Set in a popular diner, this trainer's toolkit discusses the important ways to minimize incidents before they become accidents. Through conversations between the owner and his customers, your managers and employees will learn that safety is an ongoing learning process. This video's informal situation, honest reactions, and light banter create a situation that shows how to serve up safety, a dish that pleases everyone.

SAF846 - RESPIRATORS: SCOTT EZ AIRLING

2 VHS set

Operation & Maintenance and Proper Care and Use of the Ultra-Twin Respirator

SAF847 - RESPIRATORS: COMFO II

2 VHS Set

Proper Care & Use of the Comfo II Particulate Filer Respirator and the Proper Care and Use of the Comfo II Chemical Cartridge Respirator

SAF850- SAFETY AWARENESS: A COMMITMENT TO YOURSELF (VIDEO-BASED TRAINING)

1996

It's hard to imagine an employee who wouldn't be newly committed to safety after hearing the firsthand accident accounts in this kit's video. In on-camera interviews, survivors explain how carelessness or a lapse of concentration led to their accidents, and how the resulting injuries drastically impact their lives. This high-quality video really drives home the point that safety awareness is first and foremost a matter of self-preservation. This video also gives viewers insight into the ways accidents can occur, their costs and consequences, how to recognize unsafe conditions, and more.

SAF900- SAFETY COMMITTEES WORKBOOK

1997

This workbook presents strategies for gaining management commitment; explains how to organize and operate committees; suggests methods for identifying safety problems and implementing solutions; and tells how to evaluate committee effectiveness.

SAF910 - SAFETY FOR SUPERVISORS

2 VHS Set

The Safety Trained Supervisor provides a means for employers to verify safety and health knowledge of first-line supervisors and managers.

SAF920- SAFETY MEETINGS, GIVE'EM WHAT THEY WANT

2000, 16 minutes

Just how much do your employees benefit from your last safety meeting? This video shows managers, supervisors and team leaders ways to make your meetings more productive, yet also enjoyable. This video program will help to increase employees' participation and keep the meetings focused and informative. Your organization will learn to get the most from your safety meetings, whatever their length.

SAF930- SAFE WINTER DRIVING

1999, 17 minutes

Winter driving presents special driving hazards. This video program reviews special safety techniques to help employees overcome winter driving hazards. It covers basic emergency equipment, rain, snow and ice, the skid, and stopped and stranded.

SAF950A- SAFETY ORIENTATION: IT TAKES A WINNING ATTITUDE

1996, 18 minutes

Using a sporty soccer introduction, this informative and upbeat video program gives employees an overview of workplace safety. Having a winning attitude and taking the necessary steps to protect themselves will ensure that your workers score points in the game of safety.

SAF958- SCAFFOLDING: A TRAINING KIT FOR EMPLOYEES

1997

Give employees the safety training they need to help spot scaffolding hazards before they run into accidents and violations. This training kit provides an overview of OSHA's scaffolding standard (29 CFR Part 1926, Subpart L). Plus it can help you train workers to recognize and avoid scaffold-related hazards such as instability, overloading and electrocution. Kit covers safety awareness, fall protection guidelines, protection from falling objects, performing visual inspections and more.

SAF960-SCAFFOLDS, SAFETY AT ALL LEVELS

VHS 1997, 18 minutes

Scaffold-related incidents result in 4,500 injuries and 50 deaths every year, which by OSHA recently revised its scaffold standard. This important program covers the new requirements of 1926.450-454 - now in effect! It covers the role of the competent person, pre-assembly inspection, assembly, pre-shift inspection, safe work practices and fall protection.

SAF970 – SCAFFOLDS-SAFETY AT ALL LEVELS

Coastal DVD

Every year, 4,500 injuries and 50 deaths are caused by scaffolding mishaps. This is the reason OSHA recently revised its scaffold standard. Be sure your workers are familiar with the most up-to-date OSHA requirements and that they know how to stay safe with this essential program. It also covers the requirements of 1926.450-454. It discusses the role of the competent person, pre-assembly inspection, assembly, pre-shift inspection, safe work practices and fall protection.

SAF975- SHIFT WORK, CIRCADIAN SURVIVAL

1999, 20 minutes

If your organization runs more than one shift, this program is for you! Circadian rhythms regulate the body's internal clock and deviating from this internal programming can often be difficult for workers. Teach them how to adjust and minimize difficulties with this important video. It covers: proper rest, fatigue on the job and family stress.

SAF980- SEXUAL HARASSMENT IN THE WORKPLACE... IDENTIFY, STOP, PREVENT II

2000, 24 minutes

Can your employees recognize even the mildest forms of sexual harassment? This video will leave no question in the minds of your employees about what constitutes sexual harassment, and how to prevent it. This best-selling video on awareness and prevention provides dramatic vignettes illustrating key training points, reinforced with important definitions and explanations provided by an expert in the field of sexual harassment. Some of the points covered are: how to define sexual harassment, how to identify each type of harassment, how to prevent harassment from happening, how to stop sexual harassment if it does occur, how to follow your organization's procedures for reporting a sexual harassment complaint, and how to understand the 1998 US Supreme Court rulings on sexual harassment and how they affect you and your organization

SAF985- SLIPS, TRIPS AND FALLS: TAKING THE RIGHT STEPS

Coastal DVD

One safety slip and your employees will be on the slippery road to accidents. Slips, trips and falls cause injuries in the workplace, and you have to smooth out the risks through this high-impact training program that advocates solid safety measures: awareness, good housekeeping and proper equipment use. Safety can take you a long way! Prevention techniques, Wet surfaces and poor weather conditions, Stairs and ladders, Housekeeping.

SAF986 - DON'T FALL FOR IT: PREVENTING SLIPS, TRIPS & FALLS

18 min VHS

This program includes Explain the causes of falls, Explain the difference between a loss of footing and a loss of traction, Describe how to prevent falling on stairs, Explain the five categories of all-related hazards and Explain how to soften the blow of a fall

SAF990- SMALL SPILLS AND LEAKS

1997, 15 minutes

This video program focuses on controlling small spills and leaks. It covers the essential procedures all employees should know if a leak should occur on their shift. It covers: supervision notification, securing the area, PPE, controlling and containing the spill and cleanup/decontamination.

SAF991 – SMALL SPILLS AND LEAKS

Coastal DVD

Leaks and spills can cause serious problems, but you can mop them up with this program. IF covers supervisor notification, securing, and cleanup/decontamination/PPE.

SAF993 - STAIRWAYS AND LADDERS

18 min VHS

Don't be deceived. Stairways and ladders may not appear to be as dangerous as scaffoldings, yet every year, over 34,000 workplace accidents involve stairways or ladders. Before your employees step on that stairway or ladder, they must review the crucial safety precautions in this program. They must understand why these stairway and ladder accidents occur and what they can do to prevent them. It covers Identifying stairway, hazards, Preventing stairway hazards, Ladder selection, Climbing fixed ladders, Proper ladder use, and Real-Life Situations.

SAF995- SUBSTANCE ABUSE, AWARENESS AND INTERVENTION

25 minutes

Helping fellow employees overcome substance abuse is the focus of this video program. It teaches how abuser endanger themselves and their co-workers, and it teaches supervisors how to help employees. Union and non-union versions available. This video covers safety hazards, helping a co-worker, recognizing symptoms, documentation, intervention and referral and supervisor support.

SAF999 - SOLVING THE MYSTERY: STATIC ELECTRICITY

13 min VHS

Uncontrolled static charge is the silent cause of problems ranging from annoying shocks to catastrophic explosions. Solving The Mystery: Static Electricity jolts employees on the dangers of static charges, explains how to control these risks and helps create a well-insulated and shockproof protection system. This training will cover: Defining static electricity, Identifying dangers of static discharge, Recognizing hazardous conditions, Controlling static ignition and Removing flammable atmosphere

SAF1000- THE ELECTRICAL STANDARD: WHAT YOU NEED TO KNOW

1992

This video-based program uses professionals in real-life situations to help teach employees about safe practices for working with or near electrical equipment. It gives approach distances for qualified and unqualified employees, reviews lockout/tagout procedures, discusses proper use of illumination and protective equipment, reviews testing procedures, and more.

SAF1050- THE LEADER'S GUIDE TO SAFETY COMMITTEES

1996

Effective committees start with effective leadership. This valuable manual shows safety committee leaders how to best utilize the handbook within their group. It also covers a wide range of leadership issues, including: managing committee turnover; orienting new members; setting up meetings; maintaining group motivation; and documenting group activities.

SAF1060 - THERMAL BURNS

5 min VHS

Burns exert a catastrophic influence on people in terms of human life, suffering, disability, and financial loss. More than an estimated 2 million people in the United States experience burn injuries, Work-related burns account for 20-25% of all serious burns

SAF1075-THE NYSP SAFE SCHOOLS, School Violence Prevention Program

Participants Handbook Module 1, Awareness and Prevention

SAF1100- THE NORTH AMERICAN EMERGENCY RESPONSE TRAINING KIT

This video-based training kit uses realistic situations as the background to demonstrate proper use of the 1996 North American Emergency Response Guidebook. Designed for both transporters and emergency responders, it explains how the guidebook is used in conjunction with shipping papers and placarding carried by the transporter determines proper response to accidents. It shows how the NAERG is structured, how to determine evacuations procedures and protect actions distances, and more.

SAF1189-TRUCKS: DRIVING SAFETY,

Tractor Trailer Driving Safety, 22 minutes,

What to inspect on the trucks and get it to go safely, a full inspection on the trailer and how to load it properly and drive: defensively, with caution, with consideration and SAFELY.

SAF1200- VIOLENCE IN THE WORKPLACE: AUDITS, TRAINING & PREVENTION

1995

Show employees and managers alike how to recognize and help avoid potentially violent and dangerous situations. With a 300-page manual, and separate videos for employees and managers, this program can help alert everyone in your organization to the fact that violence can strike at any time. Managers get details about how to recognize the potential for violence in employees...how to conduct termination interviews...how to set up a crisis management team...what legal issues of workplace violence are...and more.

SAF1215- WAREHOUSE SAFETY, IT'S NO MYSTERY

VHS 1996, 22 minutes

While numerous hazards exist in warehouses, learning how to be safe in one doesn't have to be a mystery. This program teaches the most common hazards in warehouses and how to correct them. This video covers good housekeeping, hazard communications, PPE, ergonomics and back safety, materials handling, driving a forklift safely and working around forklifts.

SAF1217 – WELDING – SAFE WORK WITH HOTWORK

Coastal DVD

In hot work operations, safety is a burning issue. But through this program, you can cool down the risks and torch the dangers. It details various types of welding and corresponding vital precautions. This covers personal hazards, hazardous fumes and substances, and equipment safety.

SAF1220-WHALE DONE! THE POWER OF POSITIVE RELATIONSHIPS

Ken Blanchard

This book shows how to make accentuating the positive and redirecting the negative the best tools to increase productivity, instead of creating situations that demoralize people. These techniques are remarkably easy to master and can be applied equally well at home, allowing readers to become better parents and more committed spouses in their happier and more successful personal lives.

SAF1225 - WINTER DRIVING

12 min VHS
